OUR VISION & MISSION

- To develop internal and external qualities through a knowledge based evaluative system.
- To encourage self-evaluation, accountabilities, autonomy and innovations in higher education.
- To ensure the facilities of SC/ST/OBC/PH and minorities group for higher education.
- To promote our Institution as a centre for higher studies and research.
- To conduct consultancy and training programmes for different job oriented competitive examinations.
- To generate interest in games and sports, NSS etc.
- To integrate the institution with the society at large by developing a sense of interdependence of the two.
- To encourage our students through career-counselling cell.
- To ensure students' future by launching career-oriented courses on various discipline recognised by UGC.

A BRIEF HISTORY OF THE COLLEGE

Every big thing has humble beginning. Vivekananda Mahavidyalaya at Haripal, Hooghly (W.B.) too started its journey in its own small way in the year 1966, after being affiliated to the University of Burdwan in order to cater to the need of the adjoining rural community. It was started with the benign intention of imparting value based education on the initiative undertaken by the spirited freedom fighter, Pandit Dharanath Bhattarcharya. It was under his visionary leadership that a society known as 'Vivekananda Samsad' was formed in order to celebrate the centenary year of Swami Vivekananda. The Samsad started functioning on and from January 12, 1963 and its activities were mainly aimed at the socio-cultural and educational upliftment of the adjoining localities. It organized fund collections as well as land acquisition with the objective of establishing a college and Vivekananda Mahavidyalaya was formally opened at Haripal on the 8th day of August, 1966. Gradually, the college earned reputation as a graded seat of learning and has been able to provide almost 5000 students not only from the different parts of the district of Hooghly but also from the adjacent districts of Howrah and Burdwan.

The college in its own way tried to actualize Swamiji's thought by giving the rural folk in and around Haripal, an opportunity to illuminate their minds by establishing an institution of education at their doorstep. Following the progressive thoughts of Swami Vivekananda, Pandit Dharanath Bhattacharya intended Vivekananda Mahavidyalaya to function as a beacon to the rural youth so that they become brave and worthy citizens of tomorrow. Thus, the mission of the institution from the beginning has been 'Atmanam Vidhi' i.e. 'Know Thyself'.

Vivekananda Mahavidyalaya at Haripal, Hooghly is affiliated to The University of Burdwan in terms of the University communication No. I/C/2067(4) /66 dated 08.08.1966 w.e.f. 1966-67 academic session. Now it has been running with the faculties of Arts, Science and Commerce in the Morning and Day Shifts and observed the "Golden Jubilee" Closing Ceremony on August, 2016. The college has been reaccredited by NAAC in March, 2015.

Regarding NEP (2020) from Principal Desk

I have the privilege to focus over the curricula of NEP (National Education Policy) which aims for the holistic development not only for the Higher Education but for the Primary & secondary Education also where the learners may equip themselves with the key of 21st century skill.

(1) Regarding the Multidisciplinary/interdisciplinary aspect:

Our Institution is already running with multidisciplinary courses like – Humanities, Commerce, Science and BCA (self-financing) but college has very little freedom in designing the curriculum. Our individual teachers actually give the life to the curriculum in the class room.

Institution offers UG-CBCS multidisciplinary courses in 21 different subjects since 2017-18, under “The University of Burdwan” (Affiliated), which are more or less flexible and innovative. In this system students are enabling to learn various interdisciplinary courses like Bengali, English, Environmental Sciences and two other General Elective Subjects from Arts stream/commerce stream while in science stream students may choice 3 separate Electives.

We are looking forward to open new streams offered with new and innovative syllabus, P.G departments and Research consultancies at college level which endeavors to find the solutions of recent challenges of our society.

Our well-equipped Smart Library with Automation, N-List and OPAC facilities may be the best practices for the purpose.

(2) Academic Bank of credits (ABC):

The proposal for the execution or implementation of ABC (Academic Bank of Credit) for the learners may increase much more confidence to the rural people like our college students in near future by storing their academic credits digitally which earned from various recognized HEI in their life time.

Our Institution generally maintain the database of students with their academic records and progress year wise for the interest of our students as well as the college. By this process we can enable to sensitize the teachers, parents as well as the students also.

We are very much careful to strengthen the ABC to the larger sector of society through the inclusion of students of distance learning process or Online and Digital mode education.

(3) Skill development:

Teaching, learning and evaluation is the most important criteria. The beauty of teaching learning process is that one cannot happen without the other. Students are definitely our consumer at least beneficiaries. In view to maintain the satisfaction of the consumers, we are very much careful about the rigidity of streams or subject choice. We are not interested to discriminate the curricular and extra-curricular activities as well as the vocational and professional education through the present CBCS courses.

We want to focus the important variable of teaching learning criterion which enable to improve the quality and skill of the learners by improving Teachers` quality, reforming evaluation process, enhancing student enrolment, student performance and learning outcomes.

Sometimes the syllabus, text books, the question papers, the number of periods allotted helps to develop the quality and the skill of the learners.

Feedback is another variable and analysis of feedback is much more important for the purpose. Therefore, introduction of experimental learning and the reduction of curricular content through the CBCS courses are also considered as an important tool to develop the skill and quality.

(4) Appropriate integration of Indian knowledge:

The Heads of the department and the Principal are always interested to maintain the track of teaching learning process through the enrichment of the curricula in an integrated way, but here again the departments and the colleges have the limited role.

We are very much aware of concepts like quality which is a journey and there is no quality other than total quality, and quality is never inborn and even inborn quality can be improved by conscious effort.

Therefore, we are working as a team not a group to mobilize and utilize our resources where the faculty is the most important instrument and by whom purpose may be solved through the exercise of formal or informal education.

So we are very much conscious about our social responsibilities and to exercise it we have to maintain our regularity and punctuality to our college and classes.

(5) Focus on Outcome based education:

The most innovative and best practices of our Institution to develop the environmental consciousness among the students as well as the stakeholders.

Institution has taken the initiative of student participation and activities including cultural functions, NSS extension activities, inter and intra college competition and University-State-National level sports and cultural activities.

Our NSS volunteers (about 200 students) under the guidance of two Programme Officers meet the problems of 2 adopted villagers along with their activities of normal and special camps.

We have developed a “Medicinal Plant Garden” and “Pisciculture” field within the campus, with the help of onetime UGC special grant since 2010, and now maintained voluntarily by our Bioscience students.

(6) Distance education/online education:

We understand that the open and distance learning process may strengthen the larger sector of the society through the exercise of curricula.

We aim to introduce Online and Digital mode education step by step which will be inevitable for the next generation learner in respect of the world scenario where technology controls the whole process.

In view of this mind we have developed our college as a Wi-Fi zone, and under CCTV surveillance area. Our office and all departments are provided with internet. We are enabling to develop virtual class room in the seminar hall and smart boards are also placed in most of the class rooms.

Therefore, our ultimate game or practices to increase the GER (Gross Enrolment Ratio) in the Academic Institution because the important variable of Teaching-Learning criterion i.e. student enrolment, student diversity, evaluation process, student performance and learning outcomes need to be increased for the larger interest of our society.

In fact entire Education revolves around a single principle and activity that - “Teachers have to teach and the students have to learn” which is universal and ever truth to us.

EVALUATION OF CANDIDATES

Evaluation shall be based on continuous assessment as follows:

Each Semester assessment shall be divided into Three (3) discrete components

(i) C1-The first component of assessment shall be of 10% of total marks of each course of a semester and will be based on Class Attendance, Class Test or Assignment or seminar. It will be completed during the 1st two months (8 weeks) of each semester and 1/3rd of the syllabus will be completed.

(ii) C2-The second component of assessment shall be of 10% of total marks of each course of semester as like as C1, but to be completed during the 2nd two months (16 weeks) of each semester and 2/3rd of the syllabus will be completed.

The continuous assessment of C1 and C2 will be consolidated during 16th week of the concerned semester. Appearance in C1& C2 is mandatory.

(iii) C3-The third component of assessment shall be during the 21st-23rd weeks of a semester, a semester end examination shall be conducted for each course and the proportion of C3 will be 80%of the total marks in each course of the semester.

(iv) The result of each course in a semester shall be based on the values of C1, C2 & C3 and shall be awarded in form of Grade Point.

(v) Wherever there is no practical, performance on the tutorial portion of each course shall be assessed by the University along with the assessment of the component C3 during the semester end examination.

(vi) Mechanism of computation of work load per week-

1 Credit=1 Theoretical Class of 1 hour duration.

1 Credit=1 Tutorial Class of 1 hour duration.

1 Credit=1 Practical Class of 2 hours duration.

OTHER ACTIVITIES

❖ National Service Scheme (NSS):

The National Service Scheme (NSS) was first launched by the permission of the University of Burdwan since 1969 headed by Prof. Nemai Sadhan Basu with 1 Unit. Later due to the developing interest of the students the NSS has now almost 200 students comprising of 2 Units guided by two Programme Officers. The objectives of NSS are to:

- (i) Enable the students to understand the community and to adapt to the needs of the social environment.
- (ii) Develop socio economic awareness and encourage the students to contribute to the welfare of the society.
- (iii) Take part in socio-economic activities designed to tackle social problems.

Overall, the motto of NSS is 'NOT ME BUT YOU'.

Present Programme Coordinators:-

Unit-I: Dr. Chandan Kr. Dan, Assistant Professor in Political Science.

Unit-II: Mr. Tanmoy Dey, Assistant Professor in Computer Science.

❖ Journal:

An Annual Journal of the Teachers, containing articles/essays on different subjects and book reviews is usually brought out in July-August every year for academic enrichment of the teachers and the taught.

❖ Library:

The College has a big computerized well-furnished 3,500 sq. ft. (approx.) library containing more than 32,000(+) books including text books, reference books etc. is situated within the campus. Students may consult reference books and take notes in the reading room attached to the library. Library remains open on all working days. There is an open access (OPAC) in the library for all students. The College also has a Dynamic/Responsive Library Website to provide online services to the students, teachers, and research scholars. Through the Digital Library, available in the college Website, students can access online study materials, question papers, syllabi, etc. easily. Besides, each Hons. Department is provided with seminar library exclusively for the Hons. Students.

❖ Facilities:

(1) Digital Library for accessing online study materials, question papers, syllabi, etc. through College Website (2) Well-furnished Reading Room facility. (3) Study corner with magazines and newspapers. (4) Open access system for the students. (5) Career Counselling Cell to have guidance from the teachers. ❖ Xerox Centre:

Xerox facility is available in the college premises on all working days except University Examination days. This facility is restricted to the current students for photocopying only reading materials available from the library at considerable rate.

❖ Alumni Association:

The ex-students of the college have formed an alumni association. This helps in maintaining a link between the past and the present students. Apart from conducting various programmes in the college, the past pupils share a healthy relation with the current students. We are informed about the different job prospects and possible ways of pursuing higher studies from them. This warm exchange of views helps the younger students to increase their professional values accordingly.

❖ **Online Teaching-Learning Management System / Google Classroom / Google Meet, etc.:**

Electronic Teaching Learning Management System, Google Classroom, Google Meet Class and Digital Library facilities have been introduced through College Website so that the students can easily access online classes, study materials, question papers, syllabi, etc. in broadening their horizon of learning. This Online Teaching-Learning process helps our students to continue their learning especially in the emergent situation of COVID-19 pandemic, maintaining physical distancing. In this system faculties upload the tutorial notes, study materials in different formats for the students of B.A./B.Sc./B.Com/BCA (Hons. & General). Students have 24/7 access to this unique system through the navigation menu (Online Study Material) available in the College Website. Students can download all the said materials from this system. Moreover the College has introduced Online Assignment (MCQ & Broad Type) system through College Website since 17th April, 2020 along with the present system. Faculties can create MCQ & Broad Type assignments by uploading questions and students are able to give answer online by attending the assignment in the stipulated date and time. Students are also able to get the Result (Performance Report) individually, along with the question and correct answer key, immediately after completion of the Assignment.
